Professional Profile

Seasoned software professional with deep expertise in TypeScript, Java, and Python. 7 years of experience delivering mission-critical systems.

Core Competencies

TypeScript · Java · Python · Rails · LlamaIndex · NestJS · FastAPI · MySQL · PlanetScale · Redis · DynamoDB · Docker · RabbitMQ · Nginx · Azure · Render · Railway · Claude API · Azure OpenAI · Hugging Face · Google Gemini · OpenAI API · Scrum · RAG Architecture · Event-Driven Architecture · GraphQL

Professional Experience

API Developer at Twilio (2023-02 – Present)

- Built event-driven architecture using GCP, processing 10000+ events daily
- Reduced infrastructure costs by 42% through optimization using CockroachDB
- Built event-driven architecture using GCP, processing 1000+ events daily

Platform Engineer at CodeCraft Studios (2019-12 – 2023-02)

- Designed and implemented microservices architecture using Gin, handling 50000+ concurrent users
- Built event-driven architecture using Java, processing 100000+ events daily
- Architected and built RESTful APIs serving 100+ requests/day using Gin, reducing response time by 29%

Server-Side Developer at Salesforce (2018-10 – 2019-08)

- Reduced infrastructure costs by 53% through optimization using RabbitMQ
- Built event-driven architecture using RabbitMQ, processing 500+ events daily

Education

M.Sc. in Artificial Intelligence — Technion (2018)

M.Sc. in Electrical Engineering — University of Toronto (2017)

Certifications

Oracle Certified Professional Java SE — Oracle
