

Denise Guerra

Design (UI/UX) | Fresher | Port Danafurt, Australia

denise.guerra@guerra.dev | +1-721-982-7448 | <https://linkedin.com/in/denise-guerra>

About Me

Mid-level design (ui/ux) specialist with 4 years building production systems. Skilled in HTML, Python, JavaScript with focus on performance optimization and code quality.

Education

B.Tech. in Cybersecurity

IIT Bombay

2022

Projects

ChatBot Framework (2023)

Designed Data Visualization leveraging Python microservices architecture with InVision for caching

Tech: InVision, Framer, Python

Code Review Bot (2020)

Built Design Tokens with JavaScript and Framer, serving 10,000+ daily active users

Tech: JavaScript, Framer, Principle

Code Review Bot (2023)

Implemented Prototyping Tool using Figma, achieving 99.9% uptime and handling 50k+ requests daily

Tech: JavaScript, Framer, Figma

Internships / Experience

UI Designer at OpenAI (2023-10 – Present)

Created information architecture using Adobe Creative Suite, improving navigation by 16%

Designed accessible interfaces using Adobe Creative Suite, achieving WCAG AA compliance

Created brand identity using InVision, applied across 10000+ touchpoints

Visual Designer at SkillBridge (2022-08 – 2023-08)

Created design system using Python, used across 100+ products

Created information architecture using Miro, improving navigation by 33%

Design Lead at Nvidia (2021-12 – 2022-06)

Built interactive prototypes using Netlify, reducing development cycles by 15%

Designed data visualizations using Principle, improving comprehension by 35%

Built design collaboration workflow using Storybook, reducing review time by 43%

Created brand identity using Netlify, applied across 10000+ touchpoints
