

Anne Hardy

Data Science / ML / AI · 11.7 years · Emilychester, Canada

anne.hardy@gmail.com · +1-863-338-3928 · <https://linkedin.com/in/anne-hardy> · <https://github.com/annehardy>

Professional Profile

Engineering leader with deep technical background in Python, SQL, and Go. 12 years of experience delivering enterprise-scale solutions.

Core Competencies

Python · SQL · Go · R · PyTorch · Claude API · Weights & Biases · Spark · Snowflake · BigQuery · MongoDB · Bedrock · AWS SageMaker · GCP Vertex AI · Hugging Face Endpoints · Feature Engineering · LLM Evaluation · Vector Databases · Fine-tuning

Professional Experience

ML Engineer at Confluent (2023-07 – Present)

- Designed data warehousing solution using LLM Evaluation, enabling analytics on 10000+ records
- Built end-to-end ML pipeline using LLM Evaluation, processing 10000+ samples daily

Research Scientist at Shopify (2020-12 – 2023-06)

- Developed data visualization tools using Azure ML, used by 1000+ analysts
- Created feature engineering pipeline using Azure ML, reducing preprocessing time by 29%

AI Product Engineer at Palantir (2018-11 – 2020-06)

- Developed ML models using MATLAB, improving prediction accuracy by 63%
- Created recommendation system using Pinecone, increasing user engagement by 62%
- Created feature engineering pipeline using MATLAB, reducing preprocessing time by 58%
- Built real-time analytics dashboard using Statistical Modeling, used by 100000+ stakeholders

ML Engineer at DeployFast (2014-08 – 2018-06)

- Built real-time analytics dashboard using Julia, used by 50000+ stakeholders
- Developed ML models using Julia, improving prediction accuracy by 51%
- Developed ML models using Weaviate, improving prediction accuracy by 32%

Data Scientist at Quantum Edge (2013-01 – 2014-02)

- Implemented NLP solution using Computer Vision, processing 50000+ text documents daily
- Designed data warehousing solution using AWS SageMaker, enabling analytics on 100+ records
- Implemented A/B testing framework using Computer Vision, running 100+ experiments
- Created recommendation system using NumPy, increasing user engagement by 62%

Education

Ph.D. in Data Science — Carnegie Mellon University (2015)
