

Erin Gutierrez

DevOps / SRE / MLOps — Jordanshire, Brazil

erin.gutierrez@protonmail.com · 639.801.9817 · <https://linkedin.com/in/erin-gutierrez>

Profile

Executive-level technology leader with extensive background in devops / sre / mlops. Expertise in YAML, Bash, Rust with track record of transforming organizations through technology.

Experience

Platform Engineer	at Meta	2022-09 – Present
Optimized cloud infrastructure using SRE Practices, reducing costs by 15%		
Implemented security scanning using Hetzner, identifying 100000+ vulnerabilities		
Platform Engineer	at SkillBridge	2018-02 – 2022-07
Established chaos engineering practices using Infrastructure as Code, improving system resilience		
Created self-service provisioning portal using Kubeflow, serving 100+ engineers		
Built automated backup solution using Infrastructure as Code, ensuring 500% data protection		
Implemented container orchestration using DigitalOcean, managing 1000+ containers		
DevOps Engineer	at Vercel	2016-04 – 2017-12
Implemented container orchestration using Pulumi, managing 5000+ containers		
Established GitOps workflows using Pulumi, improving deployment frequency by 64%		
MLOps Engineer	at PipelineIO	2011-05 – 2015-11
Built disaster recovery solution using Grafana, achieving RTO of 112ms		
Implemented container orchestration using Grafana, managing 100+ containers		
Implemented log aggregation using Alibaba Cloud, processing 500+ logs/day		
Platform Engineer	at Notion	2009-11 – 2011-04
Built automated backup solution using YAML, ensuring 5000% data protection		
Established GitOps workflows using YAML, improving deployment frequency by 65%		
Implemented container orchestration using YAML, managing 50000+ containers		

Education

B.Tech., Artificial Intelligence	2011
UC Berkeley	
M.Tech., Data Science	2008
UIUC	

Technical Skills

YAML, Bash, Rust, Go, Terraform, Helm, Envoy, Buildah, Istio, Tekton, Argo Workflows, GitLab CI, Prometheus, PagerDuty, Oracle Cloud, Hetzner, Alibaba Cloud, Linode, GCP, TorchServe, Kale, MLflow, Triton Inference Server, GitOps, MLOps

Projects

Feature Store — Designed Secrets Management leveraging Go microservices architecture with Rust for caching

Deployment Dashboard — Built Container Registry using Rust and Go, enabling automated processing and improving efficiency by 40%

Certifications

Azure Administrator Associate (Microsoft, 2020)

Other

Personal_statement: Passionate about accessibility and building technology that makes a difference.
