

Paula Gentry

DevOps / SRE / MLOps | Fresher | East Jenny, India

paula.gentry@protonmail.com | 480.378.2357x845

About Me

Technical leader in devops / sre / mlops with extensive experience designing microservices, optimizing performance, and building high-performing teams. Proficiency in Rust, Go, Bash.

Education

B.A. in Electrical Engineering

2018

University of Toronto — GPA: 2.99

SRE Team

Projects

Prompt Playground (2021)

Designed and implemented Chaos Engineering Framework with Bash, integrating with Go for seamless data flow

Tech: Bash, Go, Python

Skills

Rust Go Bash Python Crossplane CloudFormation ArgoCD Docker Istio Kubernetes
Skopeo Envoy Tekton Jenkins Prometheus Opsgenie PagerDuty Thanos Hetzner AWS
TorchServe MLflow Kale Triton Inference Server Infrastructure as Code GitOps Incident Management
MLOps

Internships / Experience

Release Engineer at HashiCorp (2023-07 – Present)

Built CI/CD pipelines using Kubernetes, reducing deployment time from 19s to 491ms

Established chaos engineering practices using Kubernetes, improving system resilience

Established GitOps workflows using Skopeo, improving deployment frequency by 58%

DevOps Engineer at Salesforce (2020-01 – 2023-06)

Built automated backup solution using Argo Workflows, ensuring 100000% data protection

Designed and implemented infrastructure as code using MLOps, managing 10000+ servers

Implemented log aggregation using MLOps, processing 500+ logs/day

Implemented container orchestration using Istio, managing 50000+ containers

SRE at Snowflake (2018-04 – 2019-10)

Built disaster recovery solution using TorchServe, achieving RTO of 95ms

Established GitOps workflows using Thanos, improving deployment frequency by 31%

Implemented security scanning using Kale, identifying 50000+ vulnerabilities
