Profile

Engineering leader with deep technical background in Python, C#, and Ruby. 10 years of experience delivering enterprise-scale solutions.

Experience

SDET at Supabase 2022-06 – Present

Built security testing automation using Git, finding 500+ vulnerabilities
Developed BDD framework using PyTest, writing 10000+ scenarios
Built accessibility testing using PyTest, ensuring compliance for 100+ pages
Implemented shift-left testing using AWS, reducing bug escape rate by 47%

Test Automation Engineer at CodeCraft Studios 2017-10 – 2022-02

Developed test automation framework using JavaScript, achieving 67% automation coverage
Built security testing automation using BDD, finding 100000+ vulnerabilities
Created performance testing suite using JavaScript, identifying 100000+ bottlenecks
Built accessibility testing using BDD, ensuring compliance for 100000+ pages

SDET at CodeCraft Studios 2015-10 – 2017-07

Created test data management using PyTest, generating 1000+ test records
Developed API testing framework using Appium, testing 1000+ endpoints
Built security testing automation using Appium, finding 100+ vulnerabilities

Education

Ph.D., Mathematics 2017

Columbia University

B.Eng., Data Science 2016

Columbia University

Technical Skills

Python, C#, Ruby, Java, TestNG, Appium, Playwright, Jira, BrowserStack, Sauce Labs, Docker, PostgreSQL, MongoDB, MySQL, Redis, AWS, GCP, Azure, Test Planning, Agile Testing, Performance Testing, Security Testing, BDD

Projects

Config Manager — Built Accessibility Testing using Playwright and Java, enabling automated processing and improving efficiency by 40%

Task Scheduler — Designed BDD Framework leveraging TestNG microservices architecture with Playwright for caching

Other

Personal_statement: Passionate about open source and building technology that makes a difference.
