RESEARCH INTERESTS

Lead qa / testing professional with 8 years driving technical strategy and team excellence. Expert in Java, JavaScript, Python with track record of building and scaling engineering teams.

EDUCATION

UC Berkeley	2016
B.A. in Information Technology, GPA: 3.19	
University of Waterloo	2014
B.Eng. in Cybersecurity	

PROFESSIONAL EXPERIENCE

QA Engineer	, Apple	2023-06 – Present
Implemented CI/CD testing using BrowserStack, catching 10000+ defects pre-production		
Created test reporting dashboard using PostgreSQL, tracking 10000+ test metrics		
Developed API testing framework using PostgreSQL, testing 5000+ endpoints		
Developed BDD framework using BrowserStack, writing 100+ scenarios		
Test Automation Engineer	, Confluent	2020-02 – 2023-01
Developed test automation framework using Selenium, achieving 67% automation coverage		
Created test reporting dashboard using Ruby, tracking 10000+ test metrics		
Developed BDD framework using Test Planning, writing 100000+ scenarios		
Test Automation Engineer	, HashiCorp	2017-08 – 2019-12
Built security testing automation using PyTest, finding 5000+ vulnerabilities		
Built accessibility testing using Python, ensuring compliance for 100000+ pages		
Created test data management using Agile Testing, generating 5000+ test records		

TECHNICAL PROFICIENCIES

Java, JavaScript, Python, C#, Ruby, Selenium, TestNG, Git, Sauce Labs, PostgreSQL, MySQL, Azure, GCP, AWS, Security Testing, Performance Testing

PUBLICATIONS & OTHER

Volunteer coding instructor at Davies, Allen and Price Youth Program, 2024-Present
