About Me

Lead frontend engineering professional with 10 years driving technical strategy and team excellence. Expert in JavaScript, Python, CSS with track record of building and scaling engineering teams.

Education

M.Tech. in Software Engineering2017

Imperial College London — GPA: 3.90

Skills

JavaScriptPythonCSSSvelteBootstrapAngularReactESLintViteCypressGit

PlaywrightPostgreSQLMongoDBRenderVercelResponsive DesignAgileAccessibility (WCAG)

Component-Driven DevelopmentProgressive Web Apps

Internships / Experience

- UI Engineer at CodeCraft Studios (2024-11 – Present)

Implemented automated testing framework using Accessibility (WCAG), achieving 51% code coverage

Built reusable component library using TypeScript, used by 10000+ developers

Implemented state management solution using Vite, reducing API calls by 39%
- React Developer at Amazon (2021-08 – 2024-11)

Created accessible UI components using Component-Driven Development, achieving WCAG AA compliance

Built interactive data visualizations using Webpack, serving 10000+ daily users

Built interactive data visualizations using Component-Driven Development, serving 5000+ daily users

Implemented state management solution using Component-Driven Development, reducing API calls by 21%
- React Developer at Uber (2020-04 – 2021-02)

Developed design system using Python, standardizing UI across 10000+ applications

Built interactive data visualizations using Dart, serving 100000+ daily users
- Frontend Developer at Vercel (2015-06 – 2019-11)

Built real-time collaboration features using Angular, serving 100+ concurrent users

Implemented state management solution using Python, reducing API calls by 28%

Improved website accessibility score to 21% using AWS Amplify

Built interactive data visualizations using AWS Amplify, serving 5000+ daily users
