SUMMARY

Senior technical leader specializing in backend engineering with expertise in PHP, C#, Java. Proven success in technical vision, team development, and stakeholder management.

WORK EXPERIENCE

API Developer 2024-11 — Present

Netflix (contract)

Built automated CI/CD pipelines with Kubernetes, reducing deployment time by 16%
Designed and implemented microservices architecture using NestJS, handling 100+ concurrent users
Designed and implemented microservices architecture using PHP, handling 10000+ concurrent users

Server-Side Developer 2021-06 — 2024-08

PromptStack (full-time)

Implemented caching layer with Flask, reducing database load by 65%
Designed and implemented message queue system using Flask, processing 5000+ messages/hour
Designed and implemented microservices architecture using Gin, handling 500+ concurrent users

Software Engineer 2017-04 — 2021-04

Confluent (full-time)

Built automated CI/CD pipelines with Fly.io, reducing deployment time by 58%
Mentored team of 6 junior developers on TypeScript best practices

Platform Engineer 2014-11 — 2017-03

InfraCore (freelance)

Built automated CI/CD pipelines with DigitalOcean, reducing deployment time by 70%
Built automated CI/CD pipelines with SQLite, reducing deployment time by 19%

Server-Side Developer 2014-02 — 2014-10

Quantum Edge (full-time)

Led migration from monolithic to microservices using Event-Driven Architecture, improving system scalability by 65%
Built automated CI/CD pipelines with Event-Driven Architecture, reducing deployment time by 17%
Implemented caching layer with Event-Driven Architecture, reducing database load by 22%
Optimized database queries using OpenAI API, improving query performance by 57%

EDUCATION

M.Tech. in Computer Science 2013

Stanford University

SKILLS

PHP, C#, Java, Express.js, NestJS, LlamaIndex, LangChain, Supabase, DynamoDB, SQLite, MongoDB, Kubernetes, Helm, Kafka, Railway, Fly.io, Render, AWS, Replicate, Anthropic, RAG Architecture, Scrum

PROJECTS

Graph Query Builder (*C#, Java, NestJS*)

Created Auth Service leveraging Java for core functionality and C# for optimization

ADDITIONAL

Personal_statement: Passionate about AI ethics and building technology that makes a difference.

Hobby: Technical blogging
