Professional Profile

Senior devops / sre / mlops engineer with 6 years of experience architecting and delivering enterprise solutions. Expert in HCL, PowerShell, Crossplane with demonstrated leadership in cross-functional teams.

Core Competencies

HCL · PowerShell · Crossplane · ArgoCD · Pulumi · Ansible · CDK · Istio · Kubernetes · Podman · Linkerd · Envoy · CircleCI · Jenkins · Argo Workflows · GitHub Actions · Grafana · Prometheus · ELK Stack · PagerDuty · Alibaba Cloud · AWS · GCP · MLflow · Seldon · Triton Inference Server · Kale · GitOps · Incident Management · Infrastructure as Code · Zero Trust · Chaos Engineering

Professional Experience

Cloud Engineer at HashiCorp (2024-07 – Present)

- Created monitoring and alerting system using ELK Stack, reducing MTTR by 57%
- Implemented log aggregation using GitHub Actions, processing 5000+ logs/day
- Created self-service provisioning portal using Datadog, serving 500+ engineers
- Created self-service provisioning portal using GitHub Actions, serving 100+ engineers

Platform Engineer at Meta (2023-03 – 2024-04)

- Optimized cloud infrastructure using SRE Practices, reducing costs by 26%
- Built automated backup solution using Go, ensuring 100% data protection
- Built CI/CD pipelines using Alibaba Cloud, reducing deployment time from 15s to 434ms

Release Engineer at OpenAI (2022-04 – 2022-12)

- Implemented container orchestration using Argo Workflows, managing 100000+ containers
- Implemented log aggregation using Argo Workflows, processing 100000+ logs/day
- Implemented security scanning using Crossplane, identifying 10000+ vulnerabilities
- Implemented security scanning using Argo Workflows, identifying 100000+ vulnerabilities

SRE at VectorDB Inc (2019-02 – 2021-12)

- Designed and implemented infrastructure as code using SRE Practices, managing 500+ servers
- Implemented log aggregation using Linode, processing 100000+ logs/day
- Created monitoring and alerting system using SRE Practices, reducing MTTR by 67%

Education

M.Tech. in Mathematics — UC Berkeley (2018)
