

# Jose Russell

jose.russell@russell.dev | 001-951-371-8275x48015 | Campbellport, Singapore | <https://github.com/joserussell>

## SUMMARY

---

Lead cybersecurity professional with 9 years driving technical strategy and team excellence. Expert in C, Bash, Python with track record of building and scaling engineering teams.

## WORK EXPERIENCE

---

### Security Architect

2022-05 — Present

*NeuroLink Labs (contract)*

Built security automation using SOC2 Compliance, reducing incident response time by 36%  
Created security awareness training using Python, reducing phishing clicks by 59%  
Implemented SIEM solution using Zero Trust Architecture, processing 1000+ logs/day

### Security Engineer

2019-05 — 2022-05

*Notion (contract)*

Conducted penetration testing using SOC2 Compliance, identifying 10000+ vulnerabilities  
Designed zero-trust architecture using OWASP Top 10, securing 500+ endpoints

### SOC Analyst

2018-06 — 2018-12

*PipelineIO (internship)*

Implemented SIEM solution using AWS Security Hub, processing 100+ logs/day  
Developed threat intelligence platform using Suricata, tracking 500+ threats

### Security Architect

2016-06 — 2018-02

*Datadog (full-time)*

Implemented encryption solution using Vue, protecting 10000+ records  
Designed zero-trust architecture using Elasticsearch, securing 100+ endpoints

## EDUCATION

---

### B.A. in Artificial Intelligence

2015

*Columbia University*

## SKILLS

---

C, Bash, Python, PowerShell, OWASP ZAP, Suricata, Sigma, Splunk, SonarQube, Redis, MongoDB, Elasticsearch, PostgreSQL, AWS Security Hub, GCP Security Command Center, Azure Sentinel, Incident Response, Zero Trust Architecture, SAST/DAST, Threat Modeling

## PROJECTS

---

### Resume Parser (*Sigma, Bash, Suricata*)

Created Access Control System leveraging Bash for core functionality and Sigma for optimization

### Real-time Analytics Engine (*Suricata, Bash, Sigma*)

Designed Incident Response Platform leveraging Bash microservices architecture with Sigma for caching

### API Gateway (*Suricata, Bash, C*)

Designed Incident Response Platform leveraging Bash microservices architecture with Suricata for caching

## CERTIFICATIONS

---

**CompTIA Security+** — CompTIA (2020)

## ADDITIONAL

---

**Volunteering:** Volunteer coding instructor at Cherry, Wallace and Spencer Youth Program, 2024-Present

**Hobby:** Yoga
