

Jody Johnson

Lead Data Science / ML / AI | 9.1+ Years Experience

jody.johnson@protonmail.com | 3273206345 | East Zachary, Singapore

<https://linkedin.com/in/jody-johnson>

Executive Summary

Senior technical leader specializing in data science / ml / ai with expertise in Julia, Python, Scikit-learn. Proven success in technical vision, team development, and stakeholder management.

Leadership Experience

AI Engineer

2023-09 – Present

Datadog

Created feature engineering pipeline using Neo4j, reducing preprocessing time by 39%

Built real-time analytics dashboard using Neo4j, used by 1000+ stakeholders

Created recommendation system using Neo4j, increasing user engagement by 43%

Built real-time analytics dashboard using Dask, used by 500+ stakeholders

Data Scientist

2020-12 – 2023-08

OpenAI

Implemented A/B testing framework using A/B Testing, running 100000+ experiments

Designed data warehousing solution using Neptune, enabling analytics on 100+ records

LLM Engineer

2016-11 – 2020-10

Twilio

Implemented A/B testing framework using SQL, running 5000+ experiments

Created feature engineering pipeline using SQL, reducing preprocessing time by 17%

Built ML model serving infrastructure using Dask, handling 100000+ predictions/day

Created recommendation system using SQL, increasing user engagement by 31%

Education

B.Eng. in Mathematics — Technion, 2014

M.Tech. in Electrical Engineering — EPFL, 2016

Key Skills

Julia | Python | Scikit-learn | LlamaIndex | Pandas | Airflow | Neptune | Polars | DVC | PostgreSQL | Qdrant |

Pinecone | Azure ML | Databricks | RAG | Fine-tuning
