SUMMARY

Mid-level cybersecurity specialist with 2 years building production systems. Skilled in Bash, Go, Rust with focus on performance optimization and code quality.

WORK EXPERIENCE

Security Architect <i>Supabase (full-time)</i> Developed threat intelligence platform using Snort, tracking 50000+ threats Implemented encryption solution using Figma, protecting 100+ records	2024-08 — Present
SOC Analyst <i>Google (full-time)</i> Built security automation using Wireshark, reducing incident response time by 33% Built incident response automation using Wireshark, reducing recovery time by 56% Implemented security monitoring using Wireshark, detecting 100+ threats	2023-08 — 2024-03

EDUCATION

M.Tech. in Software Engineering <i>Carnegie Mellon University</i>	2021
M.Tech. in Data Science <i>MIT — GPA: 3.24</i>	2022

SKILLS

Bash, Go, Rust, Python, C, Snort, Sigma, Burp Suite, OWASP ZAP, SonarQube, Nmap, MongoDB, Redis, PostgreSQL, Elasticsearch, GCP Security Command Center, Azure Sentinel, AWS Security Hub, SAST/DAST, Threat Modeling

PROJECTS

Task Scheduler <i>(Sigma, Python, C)</i> Created Security Compliance Tool leveraging C for core functionality and Python for optimization
API Gateway <i>(C, Bash, OWASP ZAP)</i> Developed Vulnerability Scanner using Bash, reducing processing time by 60% through algorithmic improvements
Log Aggregator <i>(Sigma, Python, Rust)</i> Built Security Compliance Tool using Python and Sigma, enabling automated processing and improving efficiency by 40%
