Professional Profile

Engineering leader with deep technical background in Node.js, PHP, and Python. 9 years of experience delivering enterprise-scale solutions.

Core Competencies

Node.js · PHP · Python · Rust · Flask · Django · Actix · FastAPI · Spring Boot · PostgreSQL · MongoDB · CockroachDB · Elasticsearch · Supabase · ArgoCD · RabbitMQ · GCP · AWS · AWS Bedrock · Replicate · OpenAI API · Claude API · Hugging Face · REST API Design · LLM Integration · GraphQL

Professional Experience

Platform Engineer at Amazon (2022-12 – Present)

- Reduced infrastructure costs by 46% through optimization using CockroachDB
- Created authentication and authorization system using SQLite, securing 5000+ user accounts
- Implemented caching layer with CockroachDB, reducing database load by 34%

Platform Engineer at Snowflake (2018-04 – 2022-08)

- Built event-driven architecture using RAG Architecture, processing 10000+ events daily
- Optimized database queries using Replicate, improving query performance by 67%

Backend Developer at Quantum Edge (2016-11 – 2018-01)

- Optimized database queries using Elasticsearch, improving query performance by 54%
- Mentored team of 4 junior developers on C# best practices
- Developed real-time data processing pipeline using Java, handling 5000+ logs/second

Education

B.Sc. in Mathematics — Columbia University (2016)

M.Tech. in Information Technology — UC Berkeley (2015)
