About Me

Distinguished technologist with 13 years shaping backend engineering practice. Deep expertise in C#, Kotlin, Go and proven ability to influence C-level decisions.

Education

B.A. in Software Engineering

2010

IIT Bombay — GPA: 3.16

Teaching Assistant

Projects

AutoScale Monitor (2024)

Built API Gateway using FastAPI and NestJS, enabling automated processing and improving efficiency by 40%

Tech: Go, FastAPI, NestJS

Skills

C# Kotlin Go LlamaIndex FastAPI NestJS MongoDB SQLite Redis Elasticsearch Jenkins
Kafka Docker GCP Railway Render DigitalOcean Fly.io AWS Bedrock Hugging Face
LLM Integration Scrum Agile

Internships / Experience

Server-Side Developer at HashiCorp (2021-12 – Present)

Created authentication and authorization system using Git, securing 5000+ user accounts

Created authentication and authorization system using Git, securing 100000+ user accounts

LLM Engineer at Airbnb (2019-10 – 2021-12)

Reduced infrastructure costs by 33% through optimization using NestJS

Reduced infrastructure costs by 22% through optimization using Anthropic

Backend Developer at Spotify (2015-06 – 2019-05)

Optimized database queries using Python, improving query performance by 29%

Designed and implemented message queue system using GCP, processing 100000+ messages/hour

Designed and implemented message queue system using Event-Driven Architecture, processing 5000+ messages/hour

Server-Side Developer at PipelineIO (2012-06 – 2015-06)

Optimized database queries using Replicate, improving query performance by 40%

Developed real-time data processing pipeline using Replicate, handling 100+ records/second

Certifications

Certified Kubernetes Administrator — CNCF

Oracle Certified Professional Java SE — Oracle
