Profile

Lead frontend engineering professional with 9 years driving technical strategy and team excellence. Expert in TypeScript, CSS, Dart with track record of building and scaling engineering teams.

Experience

UI Engineer	at Nvidia	2021-09 – Present
Built interactive data visualizations using Firebase, serving 5000+ daily users		
Implemented automated testing framework using Svelte, achieving 70% code coverage		
Integrated third-party APIs using Firebase, reducing integration time by 28%		

Web Developer	at Shopify	2019-08 – 2021-03
Improved website accessibility score to 27% using JavaScript		
Created progressive web app using Webpack, increasing user engagement by 64%		

Frontend Developer	at Palantir	2018-06 – 2019-03
Implemented state management solution using Bootstrap, reducing API calls by 36%		
Created accessible UI components using Vite, achieving WCAG AA compliance		
Created accessible UI components using Vite, achieving WCAG AA compliance		
Built interactive data visualizations using Vite, serving 10000+ daily users		

UI Engineer	at Meta	2015-11 – 2018-01
Built real-time collaboration features using Figma, serving 100+ concurrent users		
Developed design system using Render, standardizing UI across 10000+ applications		
Created progressive web app using Figma, increasing user engagement by 60%		

Education

M.Sc., Information Technology	2016
University of Michigan	

Technical Skills

TypeScript, CSS, Dart, JavaScript, Astro, Next.js, Jest, Figma, Storybook, IndexedDB, Supabase, MongoDB, Firebase, Vercel, AWS Amplify, Netlify, Cloudflare Pages, Render, Component-Driven Development, Agile, Accessibility (WCAG)

Projects

API Gateway — Implemented Form Builder using Astro, achieving 99.9% uptime and handling 50k+ requests daily

SmartCache — Built SPA Framework with Dart and Astro, serving 10,000+ daily active users

ML Model Registry — Designed Dashboard Application leveraging TypeScript microservices architecture with CSS for caching

Other

Personal_statement: Passionate about developer tools and building technology that makes a difference.
