RESEARCH INTERESTS

Executive-level technology leader with extensive background in qa / testing. Expertise in Python, C#, Appium with track record of transforming organizations through technology.

EDUCATION

ETH Zurich 2014
M.Tech. in Cybersecurity, GPA: 3.54

PROFESSIONAL EXPERIENCE

QA Lead, PipelineIO 2022-03 – Present
Developed BDD framework using Appium, writing 500+ scenarios
Implemented CI/CD testing using Appium, catching 100000+ defects pre-production

QA Engineer, Block 2018-11 – 2021-11
Created test data management using TDD, generating 5000+ test records
Developed BDD framework using GCP, writing 100000+ scenarios
Implemented CI/CD testing using Redis, catching 500+ defects pre-production
Created performance testing suite using GCP, identifying 50000+ bottlenecks

Software QA Engineer, Meta 2015-02 – 2018-07
Developed BDD framework using MongoDB, writing 100+ scenarios
Implemented shift-left testing using MongoDB, reducing bug escape rate by 16%
Built mobile testing automation using GCP, testing on 500+ devices
Created test reporting dashboard using MongoDB, tracking 50000+ test metrics

SDET, Notion 2012-09 – 2014-09
Created test data management using SoapUI, generating 100000+ test records
Developed test automation framework using Postman, achieving 59% automation coverage
Created test reporting dashboard using Python, tracking 5000+ test metrics

TECHNICAL PROFICIENCIES

Python, C#, Appium, PyTest, BrowserStack, Sauce Labs, Jira, MongoDB, MySQL, Azure, AWS, GCP, TDD, BDD, Performance Testing

SELECTED PROJECTS

Vector Search API [PyTest, Appium, C#] — Built API Testing using C# and Appium, enabling automated processing and improving efficiency by 40%

SmartCache [C#, PyTest, Appium] — Designed Load Testing leveraging PyTest microservices architecture with Appium for caching

ML Model Registry [Appium, Python, C#] — Designed Security Testing leveraging C# microservices architecture with Appium for caching

PUBLICATIONS & OTHER

"Teach instead crime customer training size game property reason word" — IEEE 2020
Passionate about developer tools and building technology that makes a difference.
