Professional Profile

Engineering leader with deep technical background in Bash, Rust, and Python. 11 years of experience delivering enterprise-scale solutions.

Core Competencies

Bash · Rust · Python · PowerShell · Go · Sigma · OWASP ZAP · Metasploit · CrowdStrike · SonarQube · Hashicorp Vault · Redis · PostgreSQL · Elasticsearch · MongoDB · GCP Security Command Center · AWS Security Hub · Azure Sentinel · SOC2 Compliance · Zero Trust Architecture · Incident Response · SAST/DAST · OWASP Top 10

Professional Experience

Penetration Tester at Google (2025-04 – Present)

- Implemented SIEM solution using Sigma, processing 1000+ logs/day
- Built security automation using Sigma, reducing incident response time by 20%
- Developed threat intelligence platform using Sigma, tracking 10000+ threats
- Developed threat intelligence platform using SonarQube, tracking 50000+ threats

Penetration Tester at TechFlow AI (2024-09 – 2025-04)

- Implemented SIEM solution using Bash, processing 5000+ logs/day
- Created vulnerability management program using Bash, reducing CVEs by 49%

Security Engineer at Airbnb (2021-08 – 2024-08)

- Implemented SIEM solution using Splunk, processing 1000+ logs/day
- Built security automation using Metasploit, reducing incident response time by 20%
- Conducted penetration testing using Rust, identifying 10000+ vulnerabilities
- Built secure CI/CD pipeline using Splunk, preventing 500+ security issues

Security Architect at Amazon (2018-10 – 2021-08)

- Designed zero-trust architecture using CrowdStrike, securing 5000+ endpoints
- Implemented identity management using SOC2 Compliance, securing 100+ user identities

Security Engineer at Shopify (2014-12 – 2018-04)

- Built security automation using Go, reducing incident response time by 67%
- Designed zero-trust architecture using Go, securing 500+ endpoints

Education

B.A. in Cybersecurity — McGill University (2013)

Certifications

AWS Certified Security Specialty — Amazon Web Services
