

# John Murphy

Data Science / ML / AI · 13.7 years · Campbellbury, India

john.murphy@gmail.com · 541.321.8209x702 · <https://linkedin.com/in/john-murphy> · <https://github.com/johnmurphy>

## Professional Profile

---

Executive-level technology leader with extensive background in data science / ml / ai. Expertise in MATLAB, R, Julia with track record of transforming organizations through technology.

## Core Competencies

---

MATLAB · R · Julia · Scala · XGBoost · LightGBM · Airflow · Weights & Biases · MLflow · Databricks · PostgreSQL · Qdrant · MongoDB · Snowflake · Hugging Face Endpoints · GCP Vertex AI · Lambda Labs · Azure ML · Computer Vision · Vector Databases

## Professional Experience

---

### Research Scientist at Supabase (2022-01 – Present)

- Implemented A/B testing framework using LLM Evaluation, running 100+ experiments
- Created feature engineering pipeline using Dask, reducing preprocessing time by 54%
- Developed data visualization tools using Dask, used by 1000+ analysts

### Data Analyst at HashiCorp (2017-06 – 2021-12)

- Designed data warehousing solution using Weights & Biases, enabling analytics on 50000+ records
- Developed ML models using TensorFlow, improving prediction accuracy by 59%
- Developed data visualization tools using TensorFlow, used by 100000+ analysts
- Built end-to-end ML pipeline using Azure ML, processing 10000+ samples daily

### NLP Engineer at Nvidia (2014-02 – 2017-06)

- Created recommendation system using Neptune, increasing user engagement by 23%
- Developed ML models using Dagster, improving prediction accuracy by 22%
- Developed ML models using Hugging Face, improving prediction accuracy by 38%
- Built ML model serving infrastructure using Dagster, handling 100000+ predictions/day

### ML Engineer at Stripe (2012-05 – 2014-01)

- Developed computer vision models using Feature Engineering, achieving 38% accuracy
- Developed data visualization tools using DVC, used by 1000+ analysts
- Built end-to-end ML pipeline using DVC, processing 50000+ samples daily

## Education

---

**M.Sc.** in Electrical Engineering — Carnegie Mellon University (2012)

**M.Sc.** in Computer Science — NUS (2009)
