

# Kimberly Estrada

Frontend Engineering — Martinborough, Australia

kimberly.estrada@yahoo.com · 737-868-1511 · <https://linkedin.com/in/kimberly-estrada>

## Profile

---

Distinguished technologist with 16 years shaping frontend engineering practice. Deep expertise in TypeScript, JavaScript, HTML and proven ability to influence C-level decisions.

## Experience

---

|                                                                                                    |                  |                   |
|----------------------------------------------------------------------------------------------------|------------------|-------------------|
| <b>Full-Stack Developer</b>                                                                        | at Microsoft     | 2024-06 – Present |
| Built reusable component library using Agile, used by 10000+ developers                            |                  |                   |
| Built real-time collaboration features using Storybook, serving 5000+ concurrent users             |                  |                   |
| Developed responsive web applications using Accessibility (WCAG), improving page load time by 50%  |                  |                   |
| <b>Full-Stack Developer</b>                                                                        | at Figma         | 2020-03 – 2024-05 |
| Developed responsive web applications using Git, improving page load time by 32%                   |                  |                   |
| Built real-time collaboration features using Accessibility (WCAG), serving 50000+ concurrent users |                  |                   |
| Implemented automated testing framework using Accessibility (WCAG), achieving 30% code coverage    |                  |                   |
| Built reusable component library using Git, used by 500+ developers                                |                  |                   |
| <b>Web Developer</b>                                                                               | at CloudNova     | 2016-08 – 2019-12 |
| Built interactive data visualizations using Webpack, serving 500+ daily users                      |                  |                   |
| Developed responsive web applications using Dart, improving page load time by 57%                  |                  |                   |
| Implemented state management solution using Webpack, reducing API calls by 70%                     |                  |                   |
| <b>Web Developer</b>                                                                               | at ScaleGrid     | 2013-02 – 2016-08 |
| Created progressive web app using Dart, increasing user engagement by 49%                          |                  |                   |
| Built real-time collaboration features using Dart, serving 1000+ concurrent users                  |                  |                   |
| Created accessible UI components using Responsive Design, achieving WCAG AA compliance             |                  |                   |
| Built reusable component library using Progressive Web Apps, used by 100+ developers               |                  |                   |
| <b>React Developer</b>                                                                             | at CodeReview.io | 2009-06 – 2012-09 |
| Integrated third-party APIs using Vite, reducing integration time by 38%                           |                  |                   |
| Created accessible UI components using Vercel, achieving WCAG AA compliance                        |                  |                   |
| Integrated third-party APIs using Vite, reducing integration time by 48%                           |                  |                   |

## Education

---

|                                    |      |
|------------------------------------|------|
| <b>Ph.D., Software Engineering</b> | 2008 |
| Tsinghua University                |      |

## Technical Skills

---

TypeScript, JavaScript, HTML, CSS, Dart, Next.js, Remix, React, Astro, Svelte, Storybook, ESLint, Jest, PostgreSQL, IndexedDB, Firebase, Vercel, Netlify, Progressive Web Apps, Agile

## Other

---

Publication: "And ago police put left gas human create also" — ICML 2021

Publication: "Boy true force security machine attention nature" — IEEE 2022

Award: Innovation Award — MLH 2019
