

Jonathan Harris

Data Science / ML / AI — Port Jessica, Netherlands

jonathan.harris@protonmail.com · (630)239-7524x5086 · <https://linkedin.com/in/jonathan-harris> · <https://github.com/jonathanharris>

Profile

Mid-level data science / ml / ai specialist with 4 years building production systems. Skilled in Julia, Python, SQL with focus on performance optimization and code quality.

Experience

Data Analyst	at CodeCraft Studios	2024-09 – Present
Built ML model serving infrastructure using MATLAB, handling 100+ predictions/day		
Designed data warehousing solution using MATLAB, enabling analytics on 500+ records		
Developed ML models using Bedrock, improving prediction accuracy by 66%		
Built real-time analytics dashboard using BigQuery, used by 500+ stakeholders		
Data Scientist	at Quantum Edge	2022-10 – 2024-04
Built ML model serving infrastructure using OpenCV, handling 50000+ predictions/day		
Developed computer vision models using OpenCV, achieving 38% accuracy		
Designed data warehousing solution using Vector Databases, enabling analytics on 10000+ records		
Developed ML models using OpenCV, improving prediction accuracy by 26%		
AI Engineer	at Airbnb	2020-10 – 2022-04
Developed ML models using ChromaDB, improving prediction accuracy by 50%		
Established MLOps practices using A/B Testing, reducing model deployment time by 31%		
Built end-to-end ML pipeline using Prompt Engineering, processing 5000+ samples daily		
Built real-time analytics dashboard using TensorFlow, used by 500+ stakeholders		

Education

B.Tech., Data Science	2020
University of Michigan	
B.Tech., Computer Science	2020
Purdue University	

Technical Skills

Julia, Python, SQL, Scala, LangChain, LlamaIndex, TensorFlow, XGBoost, Dagster, Neptune, Kubeflow, Weights & Biases, Dask, Snowflake, MongoDB, Pinecone, Lambda Labs, Azure ML, Deep Learning, RAG, NLP, MLOps, Vector Databases

Projects

Token Bucket Limiter — Implemented Data Quality Monitor using Python, achieving 99.9% uptime and handling 50k+ requests daily

Certifications

Databricks Certified Data Engineer (Databricks, 2025)

AWS Certified Machine Learning (Amazon Web Services, 2019)

Other

Volunteering: Volunteer coding instructor at Allen-Ryan Youth Program, 2023-Present

Award: Outstanding Contributor — ACM 2023

Personal_statement: Passionate about AI ethics and building technology that makes a difference.
