

Jennifer Parker

Backend Engineering · 10.0 years · West Jacob, France

jennifer.parker@outlook.com · (870)411-6864

Professional Profile

Senior technical leader specializing in backend engineering with expertise in Kotlin, Java, PHP. Proven success in technical vision, team development, and stakeholder management.

Core Competencies

Kotlin · Java · PHP · Node.js · Go · Express.js · Spring Boot · FastAPI · Actix · NestJS · DynamoDB · PlanetScale · RabbitMQ · Terraform · GitHub Actions · Docker · Kubernetes · Railway · Vercel · Fly.io · OpenAI API · Anthropic · Microservices · RAG Architecture · GraphQL

Professional Experience

Platform Engineer at PipelineIO (2022-04 – Present)

- Optimized database queries using ASP.NET, improving query performance by 31%
- Led migration from monolithic to microservices using Django, improving system scalability by 56%
- Designed and implemented message queue system using DynamoDB, processing 1000+ messages/hour
- Reduced infrastructure costs by 33% through optimization using Gin

Software Engineer at HashiCorp (2018-04 – 2022-04)

- Built automated CI/CD pipelines with Express.js, reducing deployment time by 38%
- Architected and built RESTful APIs serving 500+ requests/day using Django, reducing response time by 63%

AI Engineer at Figma (2016-02 – 2018-03)

- Developed real-time data processing pipeline using Vercel, handling 100000+ transactions/second
- Built automated CI/CD pipelines with Rails, reducing deployment time by 40%
- Mentored team of 6 junior developers on Vercel best practices
- Implemented caching layer with GCP, reducing database load by 28%

Education

B.A. in Artificial Intelligence — Imperial College London (2013)

B.Sc. in Data Science — Tsinghua University (2013)
