RESEARCH INTERESTS

Executive-level technology leader with extensive background in frontend engineering. Expertise in JavaScript, HTML, Angular with track record of transforming organizations through technology.

EDUCATION

KAIST Ph.D. in Cybersecurity, GPA: 2.94	2012
Georgia Tech M.Tech. in Artificial Intelligence	2010

PROFESSIONAL EXPERIENCE

Frontend Developer Developed responsive web applications using TypeScript, improving page load time by 30% Improved website accessibility score to 30% using Svelte Integrated third-party APIs using Svelte, reducing integration time by 67%	, Twilio	2022-10 – Present
Frontend Developer Implemented state management solution using Netlify, reducing API calls by 41% Built interactive data visualizations using Netlify, serving 1000+ daily users Created progressive web app using Component-Driven Development, increasing user engagement by 50%	, Shopify	2019-06 – 2022-10
Full-Stack Developer Improved website accessibility score to 60% using HTML Implemented state management solution using Cloudflare Pages, reducing API calls by 47%	, Block	2017-01 – 2019-06
Web Developer Developed design system using Angular, standardizing UI across 100+ applications Implemented state management solution using JavaScript, reducing API calls by 52% Improved website accessibility score to 57% using HTML Built real-time collaboration features using Cloudflare Pages, serving 500+ concurrent users	, Notion	2013-03 – 2017-01
Frontend Developer Created accessible UI components using Accessibility (WCAG), achieving WCAG AA compliance Developed responsive web applications using IndexedDB, improving page load time by 35% Integrated third-party APIs using Vue.js, reducing integration time by 61%	, Vercel	2011-10 – 2013-03

TECHNICAL PROFICIENCIES

JavaScript, HTML, Angular, React, Svelte, Vue.js, Next.js, Vite, Prettier, Storybook, Supabase, PostgreSQL, IndexedDB, MongoDB, Cloudflare Pages, Render, Netlify, AWS Amplify, Agile, Accessibility (WCAG), Responsive Design, Component-Driven Development

SELECTED PROJECTS

- Task Scheduler** [Next.js, JavaScript, React] — Built React Component Library using JavaScript and Next.js, enabling automated processing and improving efficiency by 40%
- SmartCache** [Angular, Next.js, HTML] — Implemented Dashboard Application using Angular, achieving 99.9% uptime and handling 50k+ requests daily
