About Me

Seasoned software professional with deep expertise in MATLAB, Go, and Scala. 6 years of experience delivering mission-critical systems.

Education

B.A. in Information Technology
University of Washington

2019

Projects

ChatBot Framework (2019)

Built Feature Store with MATLAB and Python, serving 10,000+ daily active users
Tech: MATLAB, Python, Julia

Health Check Service (2025)

Developed Predictive Analytics Platform using MATLAB, reducing processing time by 60% through algorithmic improvements
Tech: Python, MATLAB, Julia

Skills

Internships / Experience

NLP Engineer at Datadog (2024-07 – Present)

Built real-time analytics dashboard using Scala, used by 1000+ stakeholders
Built end-to-end ML pipeline using MLflow, processing 10000+ samples daily

AI Engineer at Cloudflare (2020-02 – 2024-02)

Developed ML models using GCP Vertex AI, improving prediction accuracy by 65%
Created feature engineering pipeline using OpenAI API, reducing preprocessing time by 19%
Created recommendation system using GCP Vertex AI, increasing user engagement by 35%
Designed data warehousing solution using OpenAI API, enabling analytics on 100+ records
