

Kerri Brown

Mid Backend Engineering | 4.2+ Years Experience

kerri.brown@protonmail.com | 001-981-731-2920 | North Davidborough, France
<https://linkedin.com/in/kerri-brown>

Executive Summary

Experienced software engineer with expertise in Kotlin, Node.js, and Java. Proven ability to lead technical initiatives and mentor junior team members.

Leadership Experience

Software Engineer 2023-12 – Present

Apple

Built event-driven architecture using Agile, processing 50000+ events daily
Developed real-time data processing pipeline using Docker, handling 100000+ records/second
Built event-driven architecture using Cassandra, processing 50000+ events daily

API Developer 2022-05 – 2023-11

CloudNova

Reduced infrastructure costs by 18% through optimization using GraphQL
Developed real-time data processing pipeline using AWS, handling 10000+ transactions/second
Designed and implemented microservices architecture using PlanetScale, handling 10000+ concurrent users
Optimized database queries using PHP, improving query performance by 29%

Backend Developer 2021-08 – 2022-02

Figma

Architected and built RESTful APIs serving 1000+ requests/day using Docker, reducing response time by 19%
Implemented caching layer with REST API Design, reducing database load by 39%
Reduced infrastructure costs by 67% through optimization using ArgoCD

Education

B.A. in Artificial Intelligence — KAIST, 2021

Ph.D. in Mathematics — TU Munich, 2020

Key Skills

Kotlin | Node.js | Java | Go | Python | Rails | FastAPI | ASP.NET | NestJS | LlamaIndex | MySQL | PlanetScale |
Redis | ArgoCD | Terraform | Jenkins | gRPC | Nginx | GCP | Railway | Fly.io | OpenAI API | Claude API | AWS
Bedrock | Hugging Face | Event-Driven Architecture | CI/CD | RAG Architecture
