About Me

Experienced software engineer with expertise in Python, Go, and Rust. Proven ability to lead technical initiatives and mentor junior team members.

Education

M.Sc. in Information Technology	2019
University of Waterloo — GPA: 3.62	
Ph.D. in Data Science	2020
IIT Bombay	

Projects

- ChatBot Framework** (2021)
Designed and implemented Kubernetes Cluster with YAML, integrating with Go for seamless data flow
Tech: Go, Rust, YAML
- Deployment Dashboard** (2022)
Implemented GitOps Workflow using Go, achieving 99.9% uptime and handling 50k+ requests daily
Tech: Go, Rust, Python

Skills

Python

Go

Rust

YAML

CloudFormation

Pulumi

Podman

K3s

Kubernetes

Buildah

Istio

Jenkins

GitHub Actions

Tekton

Azure DevOps

Argo Workflows

Prometheus

Opsgenie

VictoriaMetrics

Alibaba Cloud

Hetzner

GCP

TorchServe

MLflow

Kubeflow

Seldon

MLOps

Zero Trust

Incident Management

Internships / Experience

- DevOps Engineer** at Stripe (2023-12 – Present)
Designed and implemented infrastructure as code using GCP, managing 10000+ servers
Built CI/CD pipelines using Terraform, reducing deployment time from 18s to 140ms
Built automated backup solution using GCP, ensuring 5000% data protection
Built CI/CD pipelines using GCP, reducing deployment time from 10s to 69ms
- DevOps Engineer** at Spotify (2021-05 – 2023-06)
Built CI/CD pipelines using Zero Trust, reducing deployment time from 28s to 425ms
Optimized cloud infrastructure using Chaos Engineering, reducing costs by 15%
