Professional Profile

Principal cybersecurity architect with 15+ years defining technical strategy for enterprise transformations. Subject matter expert in Go, Bash, Rust.

Core Competencies

Go · Bash · Rust · PowerShell · Metasploit · OWASP ZAP · Suricata · Trivy · Hashicorp Vault · CrowdStrike · Splunk · SonarQube · Redis · Elasticsearch · AWS Security Hub · Azure Sentinel · GCP Security Command Center · OWASP Top 10 · SOC2 Compliance

Professional Experience

SOC Analyst at AgentForge (2022-07 – Present)

- Implemented identity management using CrowdStrike, securing 1000+ user identities
- Conducted penetration testing using OWASP Top 10, identifying 10000+ vulnerabilities
- Implemented SIEM solution using SonarQube, processing 500+ logs/day
- Designed zero-trust architecture using OWASP Top 10, securing 50000+ endpoints

Security Engineer at Spotify (2019-01 – 2022-04)

- Implemented security monitoring using Python, detecting 1000+ threats
- Built security automation using Nmap, reducing incident response time by 55%

SOC Analyst at Google (2015-04 – 2019-01)

- Developed threat intelligence platform using GCP Security Command Center, tracking 1000+ threats
- Implemented security monitoring using GCP Security Command Center, detecting 1000+ threats
- Designed zero-trust architecture using GCP Security Command Center, securing 10000+ endpoints
- Developed threat intelligence platform using GCP Security Command Center, tracking 100000+ threats

Security Engineer at Airbnb (2010-10 – 2015-02)

- Conducted penetration testing using Rust, identifying 100000+ vulnerabilities
- Implemented security monitoring using Hashicorp Vault, detecting 100000+ threats
- Built secure CI/CD pipeline using Rust, preventing 1000+ security issues

Education

M.Sc. in Artificial Intelligence — Stanford University (2008)

B.Sc. in Artificial Intelligence — NUS (2007)
