SUMMARY

Experienced software engineer with expertise in MATLAB, Go, and Scala. Proven ability to lead technical initiatives and mentor junior team members.

WORK EXPERIENCE

LLM Engineer <i>Anthropic (full-time)</i> Designed data warehousing solution using R, enabling analytics on 500+ records Built ML model serving infrastructure using R, handling 1000+ predictions/day Built end-to-end ML pipeline using XGBoost, processing 1000+ samples daily	2024-07 — Present
AI Engineer <i>Snowflake (full-time)</i> Built real-time analytics dashboard using Prompt Engineering, used by 10000+ stakeholders Implemented A/B testing framework using MLOps, running 1000+ experiments	2023-01 — 2024-05

EDUCATION

M.Eng. in Information Technology <i>IIT Bombay</i>	2023
B.Eng. in Mathematics <i>TU Munich</i>	2022

SKILLS

MATLAB, Go, Scala, Claude API, Hugging Face, Keras, OpenCV, OpenAI API, Pandas, DVC, BigQuery, Pinecone, Qdrant, Weaviate, Redshift, GCP Vertex AI, Bedrock, Feature Engineering, Vector Databases, RAG

PROJECTS

Deployment Dashboard <i>(Scala, MATLAB, Go)</i> Implemented Feature Store using MATLAB, achieving 99.9% uptime and handling 50k+ requests daily
Schema Validator <i>(Scala, MATLAB, Go)</i> Designed A/B Testing Framework leveraging Scala microservices architecture with MATLAB for caching
DataPipe CLI <i>(Scala, Go, MATLAB)</i> Built NLP Text Analyzer using Go and Scala, enabling automated processing and improving efficiency by 40%

CERTIFICATIONS

Microsoft Certified: Azure Data Scientist — Microsoft (2021)

ADDITIONAL

Personal_statement: Passionate about developer tools and building technology that makes a difference.
