Professional Profile

Distinguished technologist with 13 years shaping cybersecurity practice. Deep expertise in Python, Bash, Rust and proven ability to influence C-level decisions.

Core Competencies

Python · Bash · Rust · Go · Burp Suite · Snort · OWASP ZAP · Metasploit · Suricata · Hashicorp Vault · Splunk · Nessus · Nmap · Trivy · Elasticsearch · PostgreSQL · MongoDB · Redis · AWS Security Hub · Azure Sentinel · GCP Security Command Center · Zero Trust Architecture · Incident Response · SOC2 Compliance

Professional Experience

Penetration Tester at Netflix (2023-10 – Present)

- Implemented encryption solution using Angular, protecting 100+ records
- Created security awareness training using Redis, reducing phishing clicks by 50%
- Implemented encryption solution using React, protecting 500+ records
- Implemented SIEM solution using Rust, processing 1000+ logs/day

Penetration Tester at Nvidia (2020-12 – 2023-07)

- Implemented encryption solution using Angular, protecting 100+ records
- Conducted penetration testing using Rust, identifying 50000+ vulnerabilities
- Implemented security monitoring using Burp Suite, detecting 50000+ threats

Penetration Tester at HashiCorp (2017-07 – 2020-09)

- Implemented encryption solution using Angular, protecting 10000+ records
- Designed zero-trust architecture using Go, securing 10000+ endpoints

SOC Analyst at DataPulse (2015-04 – 2017-06)

- Created security awareness training using Bash, reducing phishing clicks by 41%
- Conducted penetration testing using Incident Response, identifying 5000+ vulnerabilities
- Implemented identity management using C, securing 50000+ user identities
- Designed zero-trust architecture using C, securing 100000+ endpoints

Security Architect at Notion (2012-09 – 2015-01)

- Conducted penetration testing using Zero Trust Architecture, identifying 1000+ vulnerabilities
- Implemented SIEM solution using Rust, processing 100+ logs/day
- Conducted penetration testing using Zero Trust Architecture, identifying 5000+ vulnerabilities

Education

B.A. in Computer Science — McGill University (2012)
