

Ronald Davis

ronald.davis@protonmail.com | (854)223-5677x82659 | North Jennifer, India
<https://linkedin.com/in/ronald-davis>

SUMMARY

Distinguished technologist with 13 years shaping data science / ml / ai practice. Deep expertise in Python, MATLAB, R and proven ability to influence C-level decisions.

WORK EXPERIENCE

AI Product Engineer

2022-03 — Present

CloudNova (full-time)

Developed computer vision models using Neptune, achieving 42% accuracy
Built end-to-end ML pipeline using Neptune, processing 50000+ samples daily
Implemented A/B testing framework using Lambda Labs, running 10000+ experiments

Research Scientist

2021-05 — 2022-03

TechFlow AI (full-time)

Created recommendation system using ChromaDB, increasing user engagement by 59%
Built real-time analytics dashboard using SQL, used by 100+ stakeholders
Created recommendation system using DVC, increasing user engagement by 23%

LLM Engineer

2018-06 — 2020-11

Twilio (freelance)

Developed computer vision models using Weights & Biases, achieving 23% accuracy
Developed computer vision models using Go, achieving 48% accuracy

Data Analyst

2015-01 — 2017-12

Notion (full-time)

Implemented A/B testing framework using LLM Evaluation, running 500+ experiments
Built end-to-end ML pipeline using Polars, processing 50000+ samples daily

AI Engineer

2011-10 — 2014-09

CodeCraft Studios (full-time)

Implemented A/B testing framework using Hugging Face Endpoints, running 50000+ experiments
Developed ML models using Hugging Face Endpoints, improving prediction accuracy by 43%

EDUCATION

B.Tech. in Electrical Engineering

2011

TU Munich — GPA: 3.35

SKILLS

Python, MATLAB, R, LangChain, PyTorch, Weights & Biases, Dagster, Redshift, ChromaDB, Lambda Labs, Databricks, Bedrock, GCP Vertex AI, Statistical Modeling, Deep Learning, Prompt Engineering, MLOps

PROJECTS

DataPipe CLI (*Python, MATLAB, R*)

Implemented Feature Store using Python, achieving 99.9% uptime and handling 50k+ requests daily

Log Aggregator (*Python, R, MATLAB*)

Designed and implemented Data Quality Monitor with MATLAB, integrating with Python for seamless data flow

ADDITIONAL

Spoken_language: Portuguese (Professional)

Award: Hackathon 1st Place — MLH 2021
