

Guy Clayton

Backend Engineering · 10.4 years · Waltersville, India

guy.clayton@outlook.com · (885)612-7652x89286 · <https://github.com/guyclayton>

Professional Profile

Engineering leader with deep technical background in C#, PHP, and Java. 10 years of experience delivering enterprise-scale solutions.

Core Competencies

C# · PHP · Java · TypeScript · Node.js · Rails · LlamaIndex · FastAPI · Elasticsearch · PostgreSQL · Helm · Jenkins · Heroku · Vercel · Cloudflare · AWS · Fly.io · Hugging Face · Anthropic · Azure OpenAI · Claude API · RAG Architecture · Event-Driven Architecture · CI/CD

Professional Experience

AI Engineer at Stripe (2024-06 – Present)

Led migration from monolithic to microservices using Go, improving system scalability by 69%
Optimized database queries using Hugging Face, improving query performance by 48%

Software Engineer at ScaleGrid (2020-06 – 2024-01)

Reduced infrastructure costs by 37% through optimization using LangChain
Architected and built RESTful APIs serving 100+ requests/day using Google Gemini, reducing response time by 25%
Created authentication and authorization system using Google Gemini, securing 500+ user accounts
Built event-driven architecture using LLM Integration, processing 100000+ events daily

Server-Side Developer at ResumeAI (2019-01 – 2020-05)

Built automated CI/CD pipelines with FastAPI, reducing deployment time by 29%
Designed and implemented microservices architecture using TypeScript, handling 500+ concurrent users

API Developer at HashiCorp (2015-04 – 2019-01)

Reduced infrastructure costs by 61% through optimization using Google Gemini
Designed and implemented microservices architecture using LangChain, handling 5000+ concurrent users
Designed and implemented message queue system using Event-Driven Architecture, processing 1000+ messages/hour

Education

Ph.D. in Mathematics — TU Delft (2013)

Certifications

Certified Kubernetes Administrator — CNCF
