Professional Profile

Lead devops / sre / mlops professional with 9 years driving technical strategy and team excellence. Expert in YAML, Bash, Pulumi with track record of building and scaling engineering teams.

Core Competencies

YAML · Bash · Pulumi · Helm · Linkerd · Kubernetes · K3s · Azure DevOps · Jenkins · GitLab CI · Argo Workflows · GitHub Actions · PagerDuty · Thanos · Datadog · GCP · Alibaba Cloud · Kale · MLflow · Seldon · Zero Trust · GitOps · Incident Management

Professional Experience

Infrastructure Engineer at Supabase (2023-05 – Present)

- Optimized cloud infrastructure using Datadog, reducing costs by 49%
- Implemented security scanning using GitOps, identifying 10000+ vulnerabilities

Infrastructure Engineer at Snowflake (2018-12 – 2023-04)

- Built automated backup solution using GCP, ensuring 100% data protection
- Implemented container orchestration using Argo Workflows, managing 1000+ containers
- Created self-service provisioning portal using Argo Workflows, serving 100000+ engineers

Platform Engineer at OpenAI (2017-03 – 2018-11)

- Implemented security scanning using GitOps, identifying 50000+ vulnerabilities
- Optimized cloud infrastructure using GitOps, reducing costs by 62%
- Designed and implemented infrastructure as code using GitOps, managing 10000+ servers

Education

B.A. in Data Science — KAIST (2015)

Certifications

AWS Certified Solutions Architect — Amazon Web Services
