

Jill Brown

Mid Cybersecurity | 3.6+ Years Experience

jill.brown@yahoo.com | 946-372-3849 | Thomastown, Brazil

<https://linkedin.com/in/jill-brown>

Executive Summary

Mid-level cybersecurity specialist with 4 years building production systems. Skilled in Rust, PowerShell, Suricata with focus on performance optimization and code quality.

Leadership Experience

AppSec Engineer

2023-02 – Present

Google

Built secure CI/CD pipeline using OWASP ZAP, preventing 50000+ security issues

Implemented encryption solution using Figma, protecting 100+ records

Designed zero-trust architecture using OWASP ZAP, securing 5000+ endpoints

Implemented encryption solution using React, protecting 100+ records

Penetration Tester

2022-02 – 2022-08

PromptStack

Designed zero-trust architecture using Threat Modeling, securing 1000+ endpoints

Conducted penetration testing using Metasploit, identifying 100000+ vulnerabilities

Implemented encryption solution using React, protecting 100000+ records

Built security automation using Metasploit, reducing incident response time by 40%

Education

B.Eng. in Computer Science — EPFL, 2022

B.A. in Cybersecurity — Carnegie Mellon University, 2019

Key Skills

Rust | PowerShell | Suricata | Snort | Burp Suite | Splunk | Wireshark | Elasticsearch | PostgreSQL | AWS Security Hub | GCP Security Command Center | Azure Sentinel | SAST/DAST | Threat Modeling
