SUMMARY

Senior technical leader specializing in data science / ml / ai with expertise in Python, SQL, Julia. Proven success in technical vision, team development, and stakeholder management.

WORK EXPERIENCE

AI Engineer

2022-02 — Present

Cloudflare (full-time)

Built end-to-end ML pipeline using R, processing 5000+ samples daily
Built ML model serving infrastructure using R, handling 500+ predictions/day

NLP Engineer

2020-09 — 2021-11

PromptStack (contract)

Developed data visualization tools using Weights & Biases, used by 500+ analysts
Designed data warehousing solution using Weights & Biases, enabling analytics on 100000+ records
Built end-to-end ML pipeline using SQL, processing 500+ samples daily
Established MLOps practices using NLP, reducing model deployment time by 20%

Data Scientist

2017-02 — 2020-08

Cloudflare (contract)

Implemented NLP solution using GCP Vertex AI, processing 1000+ text documents daily
Designed data warehousing solution using GCP Vertex AI, enabling analytics on 500+ records

EDUCATION

Ph.D. in Data Science

2018

Imperial College London — GPA: 2.97

M.Sc. in Software Engineering

2016

UIUC — GPA: 3.64

SKILLS

Python, SQL, Julia, R, XGBoost, Claude API, JAX, Keras, PyTorch, Spark, Polars, Weights & Biases, Pandas, Neo4j, Qdrant, ChromaDB, PostgreSQL, Pinecone, Lambda Labs, Hugging Face Endpoints, Computer Vision, Feature Engineering

PROJECTS

Token Bucket Limiter (*Python, R, SQL*)

Created Anomaly Detection System leveraging Python for core functionality and R for optimization

CERTIFICATIONS

Google Cloud Professional Data Engineer — Google (2024)

ADDITIONAL

Hobby: Teaching coding workshops

Personal_statement: Passionate about accessibility and building technology that makes a difference.
