

Julia Trevino

Cybersecurity — Lake Mario, Brazil

julia.trevino@outlook.com · (444)661-7679 · <https://linkedin.com/in/julia-trevino> · <https://github.com/juliatrevino>

Profile

Mid-level cybersecurity specialist with 4 years building production systems. Skilled in Go, Python, Snort with focus on performance optimization and code quality.

Experience

Penetration Tester at Quantum Edge 2024-01 – Present

Built security automation using SAST/DAST, reducing incident response time by 35%
Created vulnerability management program using Azure Sentinel, reducing CVEs by 49%
Created security awareness training using Redis, reducing phishing clicks by 16%
Designed zero-trust architecture using Threat Modeling, securing 100+ endpoints

SOC Analyst at NeuroLink Labs 2021-09 – 2023-09

Built security automation using SonarQube, reducing incident response time by 24%
Created security awareness training using AWS Security Hub, reducing phishing clicks by 69%
Developed threat intelligence platform using AWS Security Hub, tracking 10000+ threats
Implemented SIEM solution using Bash, processing 500+ logs/day

Education

B.A., Electrical Engineering 2022

University of Washington

Technical Skills

Go, Python, Snort, OWASP ZAP, Burp Suite, Metasploit, SonarQube, Trivy, Nessus, Redis, Elasticsearch, PostgreSQL, Azure Sentinel, AWS Security Hub, GCP Security Command Center, Incident Response, Zero Trust Architecture, SAST/DAST

Projects

ChatBot Framework — Developed Security Awareness Training using Python, reducing processing time by 60% through algorithmic improvements

Other

Personal_statement: Passionate about mentoring junior engineers and building technology that makes a difference.

Spoken_language: French (Conversational)
