Professional Profile

Results-driven backend engineering professional with 4 years of experience designing and implementing scalable solutions using Node.js, Go, Kotlin. Track record of delivering high-impact projects.

Core Competencies

Node.js · Go · Kotlin · Rust · Rails · FastAPI · Gin · MongoDB · CockroachDB · DynamoDB · Ansible · gRPC · ArgoCD · GCP · AWS · Cloudflare · Heroku · Claude API · OpenAI API · Anthropic · Google Gemini · AWS Bedrock · GraphQL · REST API Design · Event-Driven Architecture

Professional Experience

API Developer at Block (2022-10 – Present)

- Mentored team of 3 junior developers on Google Gemini best practices
- Mentored team of 5 junior developers on PostgreSQL best practices
- Implemented caching layer with Agile, reducing database load by 60%

API Developer at Snowflake (2021-07 – 2022-04)

- Developed real-time data processing pipeline using TypeScript, handling 100000+ transactions/second
- Created authentication and authorization system using Rails, securing 100000+ user accounts
- Built event-driven architecture using TypeScript, processing 500+ events daily
- Developed real-time data processing pipeline using Rails, handling 500+ queries/second

Education

M.Eng. in Data Science — Georgia Tech (2020)

Ph.D. in Software Engineering — University of Washington (2021)

Certifications

AWS Certified Developer Associate — Amazon Web Services
