<https://linkedin.com/in/brian-johnson>

SUMMARY

Technical leader in cybersecurity with extensive experience designing microservices, optimizing performance, and building high-performing teams. Proficiency in C, Python, Bash.

WORK EXPERIENCE

Security Architect 2022-03 — Present

Meta (freelance)

Implemented identity management using SOC2 Compliance, securing 1000+ user identities
Implemented security monitoring using SonarQube, detecting 1000+ threats

Penetration Tester 2020-10 — 2022-01

Meta (internship)

Designed zero-trust architecture using Hashicorp Vault, securing 10000+ endpoints
Implemented SIEM solution using Hashicorp Vault, processing 500+ logs/day
Built security automation using Snort, reducing incident response time by 21%
Created security awareness training using Snort, reducing phishing clicks by 47%

EDUCATION

M.Eng. in Software Engineering 2018

IIT Bombay

SKILLS

C, Python, Bash, Go, Metasploit, Burp Suite, OWASP ZAP, Suricata, Splunk, Nmap, Hashicorp Vault, Nessus, SonarQube, Redis, MongoDB, PostgreSQL, Elasticsearch, AWS Security Hub, Azure Sentinel, GCP Security Command Center, OWASP Top 10, Zero Trust Architecture, SAST/DAST, Incident Response

PROJECTS

DataPipe CLI (C, Burp Suite, Suricata)

Developed Access Control System using Burp Suite, reducing processing time by 60% through algorithmic improvements

Code Review Bot (Go, Suricata, Metasploit)

Implemented Encryption Utility using Metasploit, achieving 99.9% uptime and handling 50k+ requests daily

ADDITIONAL

Personal_statement: Passionate about mentoring junior engineers and building technology that makes a difference.

Spoken_language: Arabic (Native)

Award: Employee of the Quarter — IEEE 2025
