Professional Profile

Lead cybersecurity professional with 10 years driving technical strategy and team excellence. Expert in Rust, C, Python with track record of building and scaling engineering teams.

Core Competencies

Rust · C · Python · Go · PowerShell · OWASP ZAP · Sigma · Burp Suite · Suricata · CrowdStrike · Trivy · Nessus · MongoDB · PostgreSQL · Elasticsearch · Redis · Azure Sentinel · GCP Security Command Center · AWS Security Hub · OWASP Top 10 · Threat Modeling

Professional Experience

SOC Analyst at ModelShip (2023-12 – Present)

- Created security awareness training using Azure Sentinel, reducing phishing clicks by 52%
- Built secure CI/CD pipeline using Burp Suite, preventing 10000+ security issues
- Built security automation using Burp Suite, reducing incident response time by 42%
- Developed threat intelligence platform using Azure Sentinel, tracking 500+ threats

Penetration Tester at Spotify (2019-11 – 2023-11)

- Built security automation using PowerShell, reducing incident response time by 21%
- Designed zero-trust architecture using Redis, securing 5000+ endpoints

AppSec Engineer at Confluent (2019-05 – 2019-11)

- Conducted penetration testing using PostgreSQL, identifying 10000+ vulnerabilities
- Developed threat intelligence platform using PostgreSQL, tracking 500+ threats
- Created vulnerability management program using CrowdStrike, reducing CVEs by 24%

Security Architect at Datadog (2016-03 – 2019-02)

- Built incident response automation using AWS Security Hub, reducing recovery time by 49%
- Implemented SIEM solution using Bash, processing 5000+ logs/day
- Created vulnerability management program using Rust, reducing CVEs by 27%
- Implemented identity management using Rust, securing 500+ user identities

Education

B.Tech. in Information Technology — University of Edinburgh (2017)

Ph.D. in Data Science — ETH Zurich (2014)
