

# Anthony Coleman

Data Science / ML / AI | Fresher | North Matthew, Netherlands

anthony.coleman@gmail.com | 001-819-378-5758x5126 | <https://linkedin.com/in/anthony-coleman>

## About Me

---

Mid-level data science / ml / ai specialist with 4 years building production systems. Skilled in R, MATLAB, Julia with focus on performance optimization and code quality.

## Education

---

### M.Sc. in Artificial Intelligence

2022

MIT — GPA: 3.05

*Research Assistant - ML Lab*

### M.Tech. in Mathematics

2022

Columbia University — GPA: 3.83

## Projects

---

### Deployment Dashboard (2021)

Designed Computer Vision System leveraging R microservices architecture with Julia for caching

Tech: MATLAB, Julia, R

## Skills

---

R MATLAB Julia Scala Python JAX OpenAI API LlamaIndex PyTorch Dask Airflow  
Neptune Weights & Biases NumPy BigQuery Pinecone Redshift MongoDB Bedrock Azure ML  
AWS SageMaker Deep Learning A/B Testing RAG

## Internships / Experience

---

### Research Scientist at Nvidia (2022-07 – Present)

Developed computer vision models using JAX, achieving 65% accuracy

Developed ML models using Redshift, improving prediction accuracy by 69%

Built ML model serving infrastructure using PostgreSQL, handling 100+ predictions/day

Designed data warehousing solution using Redshift, enabling analytics on 50000+ records
