Education

Ph.D. in Electrical Engineering

2014

Georgia Tech — GPA: 2.82

Projects

DataPipe CLI (2021)

Built Real-time Chat with Remix and React, serving 10,000+ daily active users

Tech: React, Dart, Remix

Skills

- CSS
- JavaScript
- Dart
- HTML
- Bootstrap
- Remix
- Astro
- React
- Git
- Prettier
- Firebase
- PostgreSQL
- Supabase
- MongoDB
- Vercel
- AWS Amplify
- Netlify
- Accessibility (WCAG)
- Agile
- Responsive Design
- Progressive Web Apps
- Component-Driven Development

Internships / Experience

UI Engineer at Uber (2024-04 – Present)

- Implemented automated testing framework using Figma, achieving 43% code coverage
- Implemented state management solution using Responsive Design, reducing API calls by 44%
- Built interactive data visualizations using Responsive Design, serving 5000+ daily users
- Built real-time collaboration features using Dart, serving 1000+ concurrent users

Web Developer at SkillBridge (2019-07 – 2023-11)

- Developed design system using JavaScript, standardizing UI across 500+ applications
- Developed design system using Progressive Web Apps, standardizing UI across 100+ applications
- Created progressive web app using Progressive Web Apps, increasing user engagement by 57%

Full-Stack Developer at Microsoft (2015-01 – 2019-05)

- Improved website accessibility score to 35% using Angular
- Created accessible UI components using Tailwind CSS, achieving WCAG AA compliance

Full-Stack Developer at TechFlow AI (2013-08 – 2014-07)

- Developed responsive web applications using Next.js, improving page load time by 37%
- Created progressive web app using Accessibility (WCAG), increasing user engagement by 21%
- Optimized frontend bundle size using Git, reducing load time by 44%
- Integrated third-party APIs using Accessibility (WCAG), reducing integration time by 28%

Certifications

Meta Front-End Developer Certificate — Meta
