SUMMARY

Engineering leader with deep technical background in Swift, Java, and Dart. 11 years of experience delivering enterprise-scale solutions.

WORK EXPERIENCE

Android Developer

2023-04 — Present

Uber (full-time)

Implemented push notification system using Hive, increasing user engagement by 64%

Implemented push notification system using Hive, increasing user engagement by 37%

Optimized app performance using App Store Optimization, reducing battery consumption by 25%

Optimized app performance using Hive, reducing battery consumption by 37%

React Native Developer

2019-09 — 2023-04

Shopify (full-time)

Created in-app purchase integration using CI/CD for Mobile, generating 5000+ in revenue

Implemented push notification system using Realm, increasing user engagement by 21%

iOS Developer

2015-06 — 2019-07

OpenAI (full-time)

Built offline-first architecture using CocoaPods, improving app responsiveness by 52%

Created app analytics tracking using CocoaPods, providing insights on 1000+ users

EDUCATION

M.Eng. in Information Technology

2016

McGill University

SKILLS

Swift, Java, Dart, Jetpack Compose, SwiftUI, UIKit, Fastlane, Gradle, Firebase, Xcode, Hive, Core Data, SQLite, Firebase Firestore, Firebase, Supabase, Clean Architecture, Offline-First

PROJECTS

DataPipe CLI (*Jetpack Compose, SwiftUI, Java*)

Developed Mobile Backend API using SwiftUI, reducing processing time by 60% through algorithmic improvements

Config Manager (*Java, Dart, Jetpack Compose*)

Implemented Offline Sync using Jetpack Compose, achieving 99.9% uptime and handling 50k+ requests daily

Event Sourcing Engine (*Swift, Jetpack Compose, Dart*)

Created iOS Application leveraging Swift for core functionality and Dart for optimization

ADDITIONAL

Personal_statement: Passionate about developer tools and building technology that makes a difference.
