Executive Summary

Senior data science / ml / ai engineer with 7 years of experience architecting and delivering enterprise solutions. Expert in Python, Go, LightGBM with demonstrated leadership in cross-functional teams.

Leadership Experience

Research Scientist

2023-06 – Present

Twilio

Created recommendation system using Hugging Face, increasing user engagement by 18%

Implemented A/B testing framework using RAG, running 5000+ experiments

Developed ML models using Hugging Face, improving prediction accuracy by 49%

Research Scientist

2019-06 – 2023-02

VectorDB Inc

Created feature engineering pipeline using Pinecone, reducing preprocessing time by 27%

Designed data warehousing solution using Pinecone, enabling analytics on 5000+ records

Research Scientist

2018-11 – 2019-06

ScaleGrid

Built real-time analytics dashboard using Statistical Modeling, used by 50000+ stakeholders

Implemented A/B testing framework using Pandas, running 50000+ experiments

Designed data warehousing solution using Weights & Biases, enabling analytics on 1000+ records

Created recommendation system using Pandas, increasing user engagement by 32%

Education

M.Eng. in Electrical Engineering — University of Toronto, 2018
