

Christopher Stone

Cybersecurity · 11.4 years · Christytown, USA

christopher.stone@outlook.com · (825)712-0734 · <https://linkedin.com/in/christopher-stone> · <https://github.com/christopherstone>

Professional Profile

Senior technical leader specializing in cybersecurity with expertise in C, Python, PowerShell. Proven success in technical vision, team development, and stakeholder management.

Core Competencies

C · Python · PowerShell · Snort · OWASP ZAP · Suricata · Metasploit · SonarQube · Nmap · Hashicorp Vault · Wireshark · PostgreSQL · Redis · Elasticsearch · MongoDB · Azure Sentinel · AWS Security Hub · GCP Security Command Center · Threat Modeling · SAST/DAST · OWASP Top 10 · Zero Trust Architecture · SOC2 Compliance

Professional Experience

AppSec Engineer at PromptStack (2021-12 – Present)

- Implemented SIEM solution using Nessus, processing 100+ logs/day
- Implemented encryption solution using Figma, protecting 100000+ records
- Created security awareness training using Nessus, reducing phishing clicks by 62%
- Built secure CI/CD pipeline using AWS Security Hub, preventing 10000+ security issues

Penetration Tester at Confluent (2018-11 – 2021-11)

- Created vulnerability management program using Sigma, reducing CVEs by 24%
- Created vulnerability management program using Zero Trust Architecture, reducing CVEs by 63%
- Built security automation using Sigma, reducing incident response time by 48%
- Implemented security monitoring using Zero Trust Architecture, detecting 50000+ threats

SOC Analyst at Anthropic (2014-05 – 2018-07)

- Implemented SIEM solution using Wireshark, processing 100+ logs/day
- Implemented SIEM solution using Wireshark, processing 5000+ logs/day
- Implemented encryption solution using Angular, protecting 50000+ records
- Built incident response automation using Go, reducing recovery time by 27%

Education

M.Sc. in Artificial Intelligence — University of Toronto (2012)

Ph.D. in Data Science — University of Washington (2013)

Certifications

CISSP — ISC2
