

Luis Kim

Backend Engineering · 8.2 years · Micheleview, USA

luis.kim@kim.dev · (279)408-3350 · <https://linkedin.com/in/luis-kim>

Professional Profile

Senior technical leader specializing in backend engineering with expertise in PHP, Rust, Node.js. Proven success in technical vision, team development, and stakeholder management.

Core Competencies

PHP · Rust · Node.js · ASP.NET · Spring Boot · FastAPI · Actix · MongoDB · SQLite · PlanetScale · GitHub Actions · Kafka · Vercel · Cloudflare · Render · Railway · Google Gemini · Azure OpenAI · Claude API · OpenAI API · Microservices · GraphQL · Event-Driven Architecture · Agile

Professional Experience

Platform Engineer at Figma (2022-05 – Present)

- Mentored team of 3 junior developers on Hugging Face best practices
- Developed real-time data processing pipeline using DigitalOcean, handling 100000+ records/second
- Reduced infrastructure costs by 67% through optimization using Hugging Face
- Developed real-time data processing pipeline using DigitalOcean, handling 100+ transactions/second

Platform Engineer at Netflix (2021-08 – 2022-02)

- Built event-driven architecture using ArgoCD, processing 1000+ events daily
- Architected and built RESTful APIs serving 1000+ requests/day using ArgoCD, reducing response time by 56%

API Developer at ResumeAI (2017-03 – 2021-02)

- Designed and implemented message queue system using PHP, processing 100000+ messages/hour
- Designed and implemented microservices architecture using PHP, handling 100+ concurrent users
- Created authentication and authorization system using LlamaIndex, securing 100+ user accounts
- Developed real-time data processing pipeline using LlamaIndex, handling 1000+ users/second

Education

M.Sc. in Software Engineering — Stanford University (2015)
