

Jason Hobbs

Frontend Engineering — Fordmouth, Japan

jason.hobbs@yahoo.com · 962.953.6667 · <https://linkedin.com/in/jason-hobbs> · <https://github.com/jasonhobbs>

Profile

Technical leader in frontend engineering with extensive experience designing microservices, optimizing performance, and building high-performing teams. Proficiency in Python, TypeScript, Dart.

Experience

Frontend Developer at DeployFast 2025-07 – Present

Improved website accessibility score to 69% using Figma

Created progressive web app using Figma, increasing user engagement by 69%

Created progressive web app using Firebase, increasing user engagement by 31%

UI Engineer at Supabase 2022-09 – 2025-03

Built interactive data visualizations using Jest, serving 10000+ daily users

Developed design system using TypeScript, standardizing UI across 1000+ applications

Developed design system using Progressive Web Apps, standardizing UI across 100000+ applications

UI Engineer at ScaleGrid 2020-08 – 2022-06

Implemented state management solution using Prettier, reducing API calls by 25%

Improved website accessibility score to 28% using Responsive Design

Developed design system using Progressive Web Apps, standardizing UI across 500+ applications

Improved website accessibility score to 61% using Progressive Web Apps

Education

M.Sc., Mathematics 2019

Imperial College London

M.Eng., Software Engineering 2018

UC Berkeley

Technical Skills

Python, TypeScript, Dart, HTML, CSS, Bootstrap, Astro, Vite, Cypress, Firebase, Supabase, IndexedDB, MongoDB, Render, Vercel, Netlify, Agile, Component-Driven Development, Responsive Design, Progressive Web Apps

Projects

Event Sourcing Engine — Designed and implemented Data Visualization Tool with CSS, integrating with HTML for seamless data flow

Feature Store — Built Progressive Web App using Dart and TypeScript, enabling automated processing and improving efficiency by 40%

Certifications

Google UX Design Certificate (Google, 2020)

Other

Volunteering: Volunteer coding instructor at Carroll Ltd Youth Program, 2021-Present

Award: Best Paper Award — ACM 2022

Personal_statement: Passionate about developer tools and building technology that makes a difference.
