

Peggy Shields

Data Science / ML / AI | Fresher | Lake Dominicland, Japan

peggy.shields@gmail.com | 3053912975 | <https://linkedin.com/in/peggy-shields>

About Me

Lead data science / ml / ai professional with 9 years driving technical strategy and team excellence. Expert in Go, Python, SQL with track record of building and scaling engineering teams.

Education

M.Sc. in Cybersecurity

2016

Columbia University — GPA: 3.15

Kaggle Competition

Skills

Go Python SQL OpenAI API PyTorch Scikit-learn TensorFlow XGBoost Neptune
Weights & Biases Dagster MLflow Spark Snowflake BigQuery ChromaDB Bedrock
GCP Vertex AI MLOps Deep Learning Statistical Modeling

Internships / Experience

NLP Engineer at Quantum Edge (2023-06 – Present)

Implemented NLP solution using Spark, processing 50000+ text documents daily

Established MLOps practices using AWS SageMaker, reducing model deployment time by 25%

NLP Engineer at Netflix (2019-06 – 2023-01)

Built real-time analytics dashboard using GCP Vertex AI, used by 10000+ stakeholders

Created feature engineering pipeline using GCP Vertex AI, reducing preprocessing time by 47%

Implemented NLP solution using Fine-tuning, processing 10000+ text documents daily

AI Product Engineer at AgentForge (2017-12 – 2019-06)

Implemented A/B testing framework using Polars, running 50000+ experiments

Developed data visualization tools using Scala, used by 5000+ analysts

Developed data visualization tools using LlamaIndex, used by 500+ analysts

Data Analyst at VectorDB Inc (2016-09 – 2017-07)

Developed data visualization tools using Computer Vision, used by 5000+ analysts

Developed data visualization tools using Neptune, used by 10000+ analysts

Developed ML models using Neptune, improving prediction accuracy by 23%

Implemented A/B testing framework using Redshift, running 500+ experiments
