About Me

Technical leader in mobile development with extensive experience designing microservices, optimizing performance, and building high-performing teams. Proficiency in TypeScript, Objective-C, Flutter.

Education

B.Tech. in Mathematics

2020

University of Edinburgh — GPA: 3.06

Flutter Community

Projects

Real-time Analytics Engine (2023)

Designed Cross-platform SDK leveraging SwiftUI microservices architecture with React Native for caching
Tech: TypeScript, React Native, SwiftUI

Task Scheduler (2024)

Developed App Analytics using Flutter, reducing processing time by 60% through algorithmic improvements
Tech: Flutter, Expo, React Native

Task Scheduler (2024)

Designed Push Notification Service leveraging Flutter microservices architecture with Expo for caching
Tech: React Native, Flutter, Expo

Skills

TypeScript Objective-C Flutter SwiftUI Expo React Native Fastlane Xcode Firebase Firestore
Realm Hive AWS Amplify RevenueCat Clean Architecture CI/CD for Mobile App Store Optimization
MVVM

Internships / Experience

iOS Developer at Stripe (2023-04 – Present)

Developed mobile application using Firebase Firestore, achieving 5000+ downloads
Developed mobile application using React Native, achieving 50000+ downloads
Created in-app purchase integration using Offline-First, generating 100+ in revenue
Built widget functionality using React Native, increasing daily active users by 15%

iOS Developer at VectorDB Inc (2020-03 – 2022-11)

Implemented app streaming using Clean Architecture, reducing download size by 49%
Optimized app performance using React Native, reducing battery consumption by 29%
Developed cross-platform solution using React Native, reducing development time by 64%

Android Developer at Palantir (2018-10 – 2019-10)

Built AR/VR features using Hive, increasing user retention by 50%

Implemented deep linking using Jetpack Compose, improving conversion rates by 67%

Built AR/VR features using Xcode, increasing user retention by 66%

Developed mobile application using Xcode, achieving 5000+ downloads
