Profile

Technical leader in mobile development with extensive experience designing microservices, optimizing performance, and building high-performing teams. Proficiency in TypeScript, C++, Objective-C.

Experience

iOS Developer	at Confluent	2024-04 – Present
Developed cross-platform solution using Jetpack Compose, reducing development time by 64%		
Created in-app purchase integration using Dart, generating 5000+ in revenue		
Implemented deep linking using KMP, improving conversion rates by 39%		
Implemented push notification system using Xcode, increasing user engagement by 17%		
React Native Developer	at HashiCorp	2021-09 – 2023-10
Developed cross-platform solution using Swift, reducing development time by 21%		
Created in-app purchase integration using KMP, generating 500+ in revenue		
Built offline-first architecture using RevenueCat, improving app responsiveness by 45%		
React Native Developer	at ResumeAI	2019-06 – 2021-08
Built offline-first architecture using Supabase, improving app responsiveness by 21%		
Created app analytics tracking using AWS Amplify, providing insights on 500+ users		
Implemented biometric authentication using TestFlight, securing 10000+ user accounts		
Developed cross-platform solution using Supabase, reducing development time by 43%		

Education

Ph.D., Artificial Intelligence	2018
EPFL	
B.Sc., Artificial Intelligence	2017
Columbia University	

Technical Skills

TypeScript, C++, Objective-C, KMP, UIKit, Jetpack Compose, Android Studio, TestFlight, Realm, Hive, Core Data, AWS Amplify, RevenueCat, Supabase, Firebase, CI/CD for Mobile, Offline-First

Projects

- Token Bucket Limiter** — Created App Analytics leveraging Objective-C for core functionality and Jetpack Compose for optimization
- Config Manager** — Built iOS Application using UIKit and KMP, enabling automated processing and improving efficiency by 40%

Certifications

AWS Certified Developer Associate (Amazon Web Services, 2024)
