

Darlene Dixon

Backend Engineering · 9.4 years · Laurabury, Germany

darlene.dixon@dixon.dev · 903-925-3765x7692

Professional Profile

Engineering leader with deep technical background in Ruby, Node.js, and Rust. 9 years of experience delivering enterprise-scale solutions.

Core Competencies

Ruby · Node.js · Rust · Python · PHP · Rails · FastAPI · PlanetScale · Elasticsearch · Kubernetes · RabbitMQ · GCP · DigitalOcean · Fly.io · Replicate · Anthropic · Hugging Face · AWS Bedrock · Scrum · LLM Integration · CI/CD

Professional Experience

Backend Developer at Vercel (2022-10 – Present)

Created authentication and authorization system using Event-Driven Architecture, securing 10000+ user accounts

Designed and implemented microservices architecture using AWS Bedrock, handling 100000+ concurrent users

Implemented caching layer with Ansible, reducing database load by 29%

Software Engineer at AgentForge (2020-04 – 2022-05)

Optimized database queries using Supabase, improving query performance by 54%

Built automated CI/CD pipelines with Git, reducing deployment time by 52%

API Developer at PipelineIO (2017-04 – 2019-11)

Mentored team of 7 junior developers on TypeScript best practices

Optimized database queries using TypeScript, improving query performance by 43%

Designed and implemented microservices architecture using RAG Architecture, handling 500+ concurrent users

Built automated CI/CD pipelines with TypeScript, reducing deployment time by 42%

API Developer at DeployFast (2016-01 – 2016-10)

Reduced infrastructure costs by 32% through optimization using Claude API

Built automated CI/CD pipelines with Ruby, reducing deployment time by 59%

Server-Side Developer at Airbnb (2015-03 – 2015-10)

Mentored team of 8 junior developers on Spring Boot best practices

Built automated CI/CD pipelines with Elasticsearch, reducing deployment time by 26%

Education

M.Tech. in Data Science — IIT Bombay (2016)
