

Brian Smith

Principal Cybersecurity | 13.1+ Years Experience

brian.smith@smith.dev | 4903040476 | West Jasonborough, Japan

<https://linkedin.com/in/brian-smith>

Executive Summary

Executive-level technology leader with extensive background in cybersecurity. Expertise in Python, Rust, Bash with track record of transforming organizations through technology.

Leadership Experience

Penetration Tester	2022-12 – Present
---------------------------	-------------------

CodeCraft Studios

Implemented SIEM solution using OWASP ZAP, processing 10000+ logs/day

Built incident response automation using PowerShell, reducing recovery time by 56%

Security Architect	2021-10 – 2022-08
---------------------------	-------------------

Twilio

Built incident response automation using Threat Modeling, reducing recovery time by 56%

Implemented security monitoring using SAST/DAST, detecting 1000+ threats

Built security automation using Threat Modeling, reducing incident response time by 67%

SOC Analyst	2017-09 – 2021-08
--------------------	-------------------

CodeReview.io

Created security awareness training using Nessus, reducing phishing clicks by 40%

Built incident response automation using PowerShell, reducing recovery time by 48%

Developed threat intelligence platform using OWASP ZAP, tracking 10000+ threats

Penetration Tester	2015-03 – 2017-06
---------------------------	-------------------

Supabase

Implemented security monitoring using CrowdStrike, detecting 5000+ threats

Built secure CI/CD pipeline using CrowdStrike, preventing 50000+ security issues

Created security awareness training using Azure Sentinel, reducing phishing clicks by 41%

Built incident response automation using Azure Sentinel, reducing recovery time by 61%

Security Architect	2011-12 – 2014-10
---------------------------	-------------------

Datadog

Implemented SIEM solution using Incident Response, processing 1000+ logs/day

Conducted penetration testing using Incident Response, identifying 1000+ vulnerabilities

Designed zero-trust architecture using PowerShell, securing 500+ endpoints

Education

M.Tech. in Data Science — Stanford University, 2010

Key Skills

Python | Rust | Bash | C | PowerShell | Metasploit | Suricata | CrowdStrike | Trivy | Hashicorp Vault | MongoDB | Redis | GCP Security Command Center | Azure Sentinel | SAST/DAST | SOC2 Compliance | Incident Response

Credentials

CISSP — ISC2, 2022
